PROFESSIONAL SUMMARY

Manufacturing Engineer with 3+ years of experience in high-volume production environments. Strong expertise in process validation (IQ, OQ, PQ), Lean Manufacturing, New Product Introduction (NPI), and continuous improvement. Proven track record delivering 40% efficiency improvement, 37% defect reduction, and \$550K USD cost savings through data-driven methodologies, Statistical Process Control (SPC), and root cause analysis. Experienced in defect investigation, process standardization, controlled documentation, and Engineering Change Orders (ECO), supporting quality-focused, compliance-oriented manufacturing environments and improving product reliability.

CORE COMPETENCIES

- Lean Manufacturing (5S, Kaizen, Continuous Improvement)
 - New Product Introduction (NPI)
 - Process Optimization & Continuous Improvement
 - Statistical Process Control (SPC), Process Capability Analysis (Cp, Cpk)
 - Root Cause Analysis (5 Whys, Fishbone / Ishikawa)
 - Line Balancing & Time Studies
 - Overall Equipment Effectiveness (OEE) & KPI Management
 - Cost Reduction & Waste Elimination (Scrap Reduction)
 - Quality Management Systems (ISO 9001)
 - Process Validation (IQ, OQ, PQ)
 - Engineering Change Orders (ECO) & Bill of Materials (BOM)
 - ERP Systems (SAP)
 - Production Planning & Control (PPC)
 - Technical Documentation & Work Instructions (WI)
-

PROFESSIONAL EXPERIENCE

Manufacturing Engineer

Watkins Wellness | Tijuana, Baja California | 2023 – 2026

- Led New Product Introduction (NPI) projects, ensuring successful process validation, production ramp-up, and cross-functional alignment

- Improved production efficiency by 40% through line balancing, cycle time reduction, and time studies
- Reduced defects by 37% using root cause analysis (5 Whys, Ishikawa), corrective actions (CAPA), and process control strategies
- Delivered \$550K USD in cost savings through material optimization, process improvement, and waste reduction initiatives
- Developed and standardized work instructions (WI), visual aids, and process documentation to ensure consistency and compliance
- Implemented Engineering Change Orders (ECO) and managed Bill of Materials (BOM) updates in SAP
- Led Kaizen events focused on cycle time reduction, waste elimination, and productivity improvement
- Performed process validation (IQ, OQ, PQ) ensuring process capability and compliance with quality standards
- Collaborated with quality, production, and engineering teams to improve OEE, yield, and scrap reduction
- Provided technical support and troubleshooting for manufacturing processes, minimizing downtime

Engineering Technician

Watkins Wellness | Tijuana, Baja California | 2022 – 2023

- Supported New Product Introduction (NPI) and new product development processes
- Interpreted engineering drawings and specifications for manufacturing execution
- Created and maintained process documentation, work instructions, and visual aids
- Participated in process improvement, root cause analysis, and troubleshooting activities

Engineering Intern

Watkins Wellness | Tijuana, Baja California | 2022

- Developed work instructions and process documentation
- Conducted time and motion studies to support line balancing and efficiency improvements
- Assisted in process validation, engineering testing, and data collection
- Supported layout design and process flow development

ADDITIONAL EXPERIENCE

- Warehouse Clerk – Vouri MX
 - Production Operator – Eunsung Plant II
 - Quality Control – Supplier Support Tijuana
-

EDUCATION

Bachelor of Science in Industrial Engineering (Advanced Manufacturing) 2018 – 2023

Industrial Production Technician
2016

TECHNICAL TOOLS

- SAP (ERP)
 - Microsoft Excel (Avanzado)
 - Data Analysis & Reporting
 - Minitab 18
 - AutoCAD
 - Arena Simulation
 - SolidWorks
 - Power BI (Certified)
 - Microsoft Office Suite
 - Mechanical & Hand Tools
 - Measuring Tools (Calipers, Micrometers, Gauges)
-

LANGUAGE

Español – Nativo

English – Nivel B1 / Intermedio
